Brand New Book ***** Print on Demand *****.The static state of public education continues to plague educational leaders and educators. The acceptance of the status quo of public education is recognized by all of us, and it is time to look at radical change. The college drop-out rate continues to be a serious problem, and it is time to take a hard look at what secondary education is all about. After the junior year of high school, most students have completed the mandated courses and examinations.
