

Qualidade do ar na área industrial do município de Barcarena PA

By Araújo, Ivan

Book Condition: New. Publisher/Verlag: Novas Edições Acadêmicas | Uma avaliação da dispersão de poluentes atmosféricos e suas consequências sobre as populações humanas | A poluição do ar é considerada um dos maiores problemas da sociedade contemporânea, por ameaçar sua qualidade de vida, visto gerar impactos negativos no meio ambiente natural e entrópico. O presente trabalho avaliou a qualidade do ar e a dispersão de poluentes atmosféricos na área industrial do município de Barcarena, estado do Pará visando identificar pontos críticos de poluição. O Índice de Qualidade do Ar IQA e as fragilidades das populações humanas das áreas afetadas pelos poluentes atmosféricos, também foram mensurados neste trabalho. Os resultados demonstram que a influência de parâmetros meteorológicos, na dispersão de poluentes são determinantes na previsão do impacto na qualidade do ar e no planejamento do uso e ocupação do solo de áreas que abrigam atividades poluidoras da atmosfera. | Format: Paperback | Language/Sprache: por | 124 pp.
